CLAY CITY, KY., THURSDAY, JULY 8, 1909.

NO. 27.

Politics in Schools.

We noticed one feature of the new school law was observed in the election of teachers last Saturday, and that was the elimination of politics. The teachers elected in this division are, with one exception, all Republicans, and the same thing prevailed throughout the county it is said. So the Democratic teachers are practically eliminated.—Estill Herald.

Officers Elected.

The Odd Fellows elected officers at their meeting last Wednesday night as follows:

J. G. Easter, Noble Grand;
Shelt Johnson, Vice-Grand;
L. P. Keith, Secretary;
D. R. Daniel, Treasurer.

These officers were installed last night.

Mr. and Mrs. Simpson Battershall, of Iowa, are visiting Mrs. Battershall's father, "Uncle" Buck Berry and other relatives in the western portion of the county.

Married.

Mr. J. B. Patton and Miss Carrie Roberts, of this city, drove to Mt. Sterling Thursday, July 1st, and were married at the court house by the County Judge.

Died.

The eleven-months old child of Walter Potts, died at the home of its grandfather, Elder Albert Easter Friday night. Burial at Powell's Valley Monday.

This Sale Continues.

The hot weather sale at Mrs. Williams is providing a general public benefit sale. Many dollars are being saved by the buying public who are visiting this store during these hot days. If you are not one of the satisfied customers you should be.

The Per Capita \$4.

State Superintendent J. G. Crabbe has announced that the school per capita will be \$4.00 per scholar, an increase of sixty cents over last year. There are 743,908 pupils in the State this year which will make the schools of the Commonwealth cost us \$3,975,632.00. Quite a snug little sum to pay for one purpose in one year.

B. F. Berry, Undertaker and Contractor of West Bend, was in the city Saturday buying dressed lumber for a school house which he has under contract near Furnace. This is the second school house Mr. Berry has built for the county under the new school law. His work in every line always pleases.

Mr. and Mrs. Pete Phillips were called to Sardis, Miss. last week when their daughter, Mrs. Wm. Moore, had fallen and sustained a broken limb. They have returned home and report their daughter getting along nicely.

The celebration of the 4th which took place here on the 3rd, the 4th falling on Sunday was very quiet and peaceful. The crowd was not large and orderly. Everyone seemed to enjoy the day fine.

Mrs. J. W. Chalfin and children left Clay City yesterday for their home at Sardis, Miss. On their way home they will stop at Louisville and Owensboro to visit other relatives.

The hot prices at the hot weather sale at Mrs. Williams' are making the goods move fast. If you are not getting your share of the bargains, it is your own fault.

"Liberty Brand" Hats for Men and Boys in all the new shapes and shades. Hardwick & Co., Stanton.

Relief for Tobacco Growers.

The United States Senate, it is claimed, will concur with the House and remove the six cents a pound tax on tobacco in the hand so farmers can sell to dealers or consumers whatever tobacco they may need without paying tax. This will greatly stimulate the use of what is called homespun tobacco to a decided advantage to both the grower and user. The manufactured article will be taxed 8 cents a pound instead of six cents as heretofore. This, if finally enacted, will be one bit of legislation against the trusts. Great credit should be given Senator Bradley who joined the Democratic members and is fighting for once in the interest of the people.

Bad Milk for Louisville.

Out of 110 tests made of the milk supply of the city of Louisville by the State Board of Health, 30 were shown to have tubercular germs. It is now up to the city authorities to put a stop to the sale of such impure milk. The same conditions possibly exist in all other cities. No wonder we have so much consumption in the land if this tubercular theory is to be credited.

Costly Celebration.

The three days celebration of the Nation's Birthday resulted in fewer deaths and less property loss than any year for five years back. The list is 54 dead, 1,720 injured and property loss of \$872,450. This celebration business comes high but we must have it, it seems.

Wins Two Games, Loses One.

The games of ball Saturday between the home team and the Pilot View nine resulted in two victories for the home boys by good odds. On Sunday their luck was reversed when they played the Winchester All Stars and were defeated by a score of eight to two.

Wet June.

A gentleman who kept a close record says it rained every day in June except three. "The dry June for a good crop year," we hope will not hold good this time. A good deal of the corn land in the bottoms however is done scalded out.

George Adams, the tie man from Jackson was in the city Tuesday taking up some ties. Mr. Adams says the Democrats of Breathitt county have a fine ticket in the field and he believes every one of them will be elected.

Misses Ethel and Nora Martin, of Vinton, and Miss Hattie Knox, of Levee, spent a few days with their cousin, Miss Grace Martin last week.

See our line of Cook Stoves and Ranges. We can sell them cheaper than peddlers or mail order houses, and besides you can see just what you are buying, and know where to find us should anything be unsatisfactory with the stove or range. Hardwick & Co., Stanton, Ky.

Captain Sams Re-Elected.

Captain Jasper R. Sams has been re-elected Captain of the Lexington Company of the State Militia. Captain Sams volunteered as a private in the Spanish-American war from this county, and has seen active service in Cuba and the Philippines. He ranks high with the officers of the State Militia, and has always been regarded as a brave and trusty soldier.

Harvey Carr will leave about July 15th for Miami, Texas where he will join Mrs. Carr in an extended visit to their daughter Mrs. L. G. Christopher.

Mrs. Mose Baker and children, of Lexington, visited her sister-in-law, Mrs. W. N. Bush, the first of the week.

Gardens were never better than now and as a consequence vegetables are cheap and the market glutted.

G. P. Douglas, of Levee, was in the city today on business.

Payne and Aldrich each wants the honor (?) of having the new tariff bill, framed in the interests of the trusts, named after him. Either name would be appropriate, for it will give the consumers many a pain (Payne), and under its operation the trusts, which already all rich (Aldrich), will become richer. The two Senators might compromise the matter of a name by calling it the Pay-rich trusts bill.—Exchange.

Don't fail to have Dr. Hamman fix your teeth. Satisfaction guaranteed.

Two Versions.

Item from the Yaptown Yapper: "Cindy Simper, who lives at Josh Jungleberry's was nearly badly hurt, last week, when she was about her kitchen work. A shelf fell and all the tinware, crocks and table dishes come down on her head. Josh called at this office to-day and said Cindy was still able to eat three meals a day and to entertain B. H. which stands for Bill Higgins but don't tell that we told you."

Written up by a city newspaper reporter, the foregoing would appear something like this: "Miss Cinderella Simper was the recipient of a china and tinware shower last evening, at the pleasant villa of Mr. Joshua Jungleberry. The occasion was made the time for announcing the coming marriage of Miss Simper to Mr. Wm. Higgins, one of Yaptown's most popular and industrious young men. Miss Simper is a most estimable, beautiful and accomplished young lady."

This gives two versions of one occurrence, as the result of its being sized up from two different view points, and also illustrates the power of the press to turn a misfortune into a happy event, tears to laughter and to boost along a case of courtship, slow in culmination.—Exchange.

There never has been an amendment to the present Constitution so popular with the people as the good roads amendment to be voted on in November. It has the support of every newspaper in the State, with but one exception, regardless of politics. It has the support of all the State officials of all the farmers clubs in the State, of all commercial clubs and of all the railroads. If there is anybody against it, they have not been heard from, and it looks like it would be adopted unanimously. What a tribute to the good roads sentiment in Kentucky all this is!—Elizabethtown News.

The great masses of the people are poor and will perhaps ever remain so. This is the class that needs protection from the avarice and oppression of the favored few. The Government has no right, through a protective tariff no lumber, iron or any other necessities of life, to put the hands into the pockets of all the people and rob them to enrich the few. Every human being is entitled to a square deal.

Fred D. Warren, business manager of the Appeal to Reason, a Socialist paper at Girard, Kan., who two years ago offered through his paper \$1,000 reward for the kidnaping of W. S. Taylor and bringing him to Kentucky for trial in the Geobel murder case, and was later arrested by the Government, was tried at Fort Scott, last week and fined \$1,500 and sentenced to six months in jail.

The Way to Get Good Roads.

The Bosworth-Wyatt Good Road Amendment to the Kentucky Constitution which passed the last State Legislature by an almost unanimous vote, and which is to be voted on at the next November election of 1909, by the voters of Kentucky as follows:

"The credit of the Commonwealth may be given, pledged or loaned to any county of the Commonwealth for public road purposes, and any county may be permitted to incur an indebtedness in any amount fixed by the county, not in excess of five per centum of the value of the taxable property therein, for public road purposes in said county, provided said additional indebtedness is submitted to the voters of the county for their ratification or rejection at a special election held for said purpose, in such manner as may be provided by law, and when such indebtedness is incurred by any county, said county may levy, in addition to the tax rate allowed under section 157 of the Constitution of Kentucky, an amount not exceeding twenty cents on the one hundred dollars of the assessed valuation of said county for the purpose of paying the interest on said indebtedness and providing a sinking fund for the payment of said indebtedness."

We have a number of men's suits that will close out regardless of cost. Will sell them at the following prices, for cash only. \$17.00 suits for \$11.00, \$14.00 suits for \$9.00, \$12.50 suits for \$8.00. If you can use any of them you can not afford to miss this opportunity.

The Home Raised Dog.

Old man Grouch says: The average Kentucky farmer buys canned and dried fruits—likewise canned and dried other goods. He gets up at the alarm of a Connecticut clock, fastens his Chicago suspenders to his Detroit overalls, washes his face with Cincinnati

soap in a Pennsylvania washpan, sits down to a Grand-Rapids table and eats Indiana hominy made in St. Joseph lard on a St. Louis stove. Then he puts a St. Louis bridle on a Missouri mule and plows a farm covered by an Ohio mortgage. When bedtime comes he crawls under a blanket made in New Jersey only to be kept awake by a Kentucky dog which is about the only home raised product on the place.—Exchange.

His Nerve At Right.

A doctor told us this one: A patient called at his office, stated his ills, and the doctor wrote a prescription and handed it to him. The patient then inquired the probable cost of getting it filled and was told about 60 cents would pay the bill. The patient then asked the doctor for the loan of the amount and the doctor then scratching his head, drew a line through several parts of the prescription and then handed it to the patient, saying: "Now you eat get it filled for a dime. Those I scratched out were for your nerves, but I see you do not need anything for them."

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that their is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Each of the chief organs of the body is a link in the Chain of Life. A chain is no stronger than its weakest link, the body no stronger than its weakest organ. If there is weakness of stomach, liver or lungs, there is a weak link in the chain of life which may snap at any time. Often this so-called "weakness" is caused by lack of nutrition, the result of weakness or disease of the stomach and other organs of digestion and nutrition. Diseases and weaknesses of the stomach and its allied organs are cured by the use of Dr. Pierce's Golden Medical Discovery. When the weak or diseased stomach is cured, diseases of other organs which seem remote from the stomach but which have their origin in a diseased condition of the stomach and other organs of digestion and nutrition, are cured also.

The strong man has a strong stomach. Take the above recommended "Discovery" and you may have a strong stomach and a strong body.

GIVEN AWAY.—Dr. Pierce's Common Sense Medical Adviser, new revised Edition, is sent free on receipt of stamps to pay expense of mailing only. Send 21 one-cent stamps for the book in paper covers, or 31 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

Kentucky Crop Report.

The monthly report of crop conditions in Kentucky for the month of June as compiled by Commissioner of Agriculture Rankin is given to the public this week. The report is as follows:

There has been an unusual amount of rainfall, so much so that many farmers have been greatly hindered in their work. In many sections it has been too wet to plow and weeds are growing very rapidly. A great deal of ground was not ready for the crops at planting time on account of so much rain.

The greater part of the wheat crop has been cut but some remains yet uncut owing to the unfavorable weather. At this time last year all of the wheat had been cut and threshing had commenced. The drouth of last fall caused a smaller acreage of wheat sown and also hindered its growth. The State entomologist reports the appearance of scale and many persons report rust and blight, owing to wet weather.

The largest acreage of corn has been planted in Kentucky that has been planted for years, with the possible exception of 1908, then due in a large measure to the cutting out of the 1908 tobacco crop. This year all corn has been planted in good time and the prospects are for a very large crop. Last year's oat crop was a complete failure, but the prospects this year are for a large yield and good crop. No traces of rust have been reported so far.

More alfalfa is being planted each year and the crop is being better understood than ever before. Farmers are experimenting and are learning that this is the best-paying crop almost that can be raised on the farm. The condition of alfalfa is splendid. The first cutting was made in May, and many crops have been clipped the second time. Prospects are that five cuttings will be obtained from alfalfa this year in many sections of the State.

Better prospects are for clover at this time than has been for years, although a little late.

Horses, mules and hogs are selling. Cattle are selling about the usual price with an increase in numbers over last year.

It cost about five cents a pound to produce poultry. This is about what it costs to produce a hog

live weight. The hog loses at least 30 per cent. in dressing and the chickens or turkeys about ten per cent. Then it's cheaper for the farmer to eat poultry than pork, you see.
